MANAGEMENT DISCUSSION AND ANALYSIS

Economic Scenario:

Near Term, The growth prospects for 2012-13 remain uncertain, with growth abating the Euro area and moderation in the emerging markets. The economic crisis and its ramifications have accelerated the shift of economic power from the developed to the emerging nations and exposed a fragile world with limited capacity to respond to systematic risks. The consequence has been volatile and low growth which is likely to stay for some time to come.

For the Indian economy, the uncertainty continues; after 6.2% GDP in 2011-12 growth further moderated to 5% in 2012-13 with a marked slowdown across sectors.

Indian economy, witnessed many lows during the year. The major being:

- GDP Growth rate fell year on year to 5 % during 2012-13, touching its lowest level in recent history.
- Indian rupee weakened against US Dollar to its historically low levels & threats to breach 65 level mark.

Going forward, tough inflation and interest rates are anticipated to ease from current levels, slowing investments and declining capital formation may have a greater bearing on the prospective growth of Indian Economy.

While the long term India growth story is intact, the growth curve may not move steadily upwards in the short to medium term on account of rising fiscal deficit, high global prices and inflation, continued tightening by RBI to manage inflation and impact of the global macro economic factors.

Industry Structure and Development:

The outlook for the NBFC sector remains positive backed by the lower credit penetration and huge capital formation requirement of the country. However, in the short term, the sector may find the macro-economic environment challenging for growing quality book on account of overall bearish sentiments, volatile stock markets and high interest rates.

The continuing stress in the Global Financial system coupled with the domestic uncertainty has brought the domestic market to near standstill. The sluggish pace of activity in Indian Economy remained a cause of concern throughout the financial year 2012-2013.

Being a NBFC the Company's operations continue to be mainly focused in the areas of Financing, Inter- corporate Investments & Capital Market activities.
